CONNELLSVILLE, PA., TUESDAY, FEBRUARY 21, 1911.

TOBACCO SELLERS MUST PAY COSTS.

Court Suspends Sentence in
Each Instance on Pleas
of Guilty.

SEVENTY-SIX THIS MORNING

The Remaining 16 Have Promised to
Put in An Appearance This After-
noon—Up to Noon About \$1,500 in
Costs Had Been Turned In.

Special to The Courier.
UNIONTOWN, Feb. 21.—The de-
fendants prosecuted for selling cigarettes
and tobacco to those under age were
before the court today. Of the 92
men indicted, 74 faced court this morn-
ing and entered pleas of guilty. The
remaining 16 have promised to appear
this afternoon.

District Attorney Henderson out-
lined the case against the men. At-
torney E. H. Reppert, R. P. Sterling and
F. C. Irvin appeared for the defend-
ants and spoke briefly. Judge Reppert
made the most important address and
spoke particularly in behalf of the for-
eigners. He said they were not guilty
of criminal intent.

Judge Unikel said he agreed that the
defendants should be observed and while
between \$25,000 and \$50,000 could be
collected for the county by imposing
the maximum sentence in each case,
he would let the defendants off by
paying the costs. The record will be
kept open and if a subsequent arrest
is made, a sentence will be passed
on this count as the later one.

The court this morning appointed
Ralph K. Long an auditor of Con-
necticut to succeed W. R. Scott,
elected to the school board.

The case of Margaret Aldridge
against the Baltimore & Ohio railroad
was continued at noon today until to-
morrow morning to give the defend-
ants time to present additional records
in court.

The costs ranged from \$18 to \$25
in each case.

A few minor sentences were hand-
led by Judge Unikel. James Swick,
who comes from Ohio but who has
been in Uniontown for the last four
years, was given 60 days to the work-
house for dodging a board bill. Judge
Unikel advised him to keep on to Ohio.

Joe (Coke) drew 30 days to jail for secur-
ing \$5 worth of merchandise from the
Crystal Supply Company at Republic.

John Stup and Mike Lauries were
given four months to the workhouse
for vagrancy. Frank Greco was sent
to the workhouse for six months for
assault and pointing firearms. John
Smith and Adam Gagnier were given
four months to the workhouse for as-
sault and battery.

Father Thinks Murder Was Done

United Press Telegram.
NEW YORK, Feb. 21.—That infor-
mation in his possession leads him to
believe that his daughter, Dorothy,
was kidnapped in Fifth avenue on De-
cember 12, that later she was murder-
ed and her body disposed of, was the
assertion today of Francis B. Arnold,
father of the missing Dorothy Arnold.

This information has been placed in
affidavit form and today turned it
over to District Attorney Whitman
who is now investigating it.

"Months may elapse before we know
the whole truth," said Arnold, "but it
will come to the surface at last. I
am firmly convinced my daughter was
murdered and I shall spend every dol-
lar I possess to have her slayers pun-
ished."

Granges Fight Reciprocity Bill

United Press Telegram.
WASHINGTON, Feb. 21.—Representa-
tives from the Grange in their respec-
tive States, led by N. J. Bachelder,
Master of the National Grange and
former Governor of New Hampshire,
served notice on the Senate Finance
Committee today that the free trade
reciprocity agreement with Canada is
unfair and that they will fight it to
the finish.

"The mere introduction of the bill
has reduced the price of wheat 4
cents," said Bachelder. He objected
to having farm products at the free
list with manufacturers protected. A
special protest was made by T. C.
Adams, Master of the West Virginia
grange.

Will Make Protest.
A protest will be made at the com-
ing session of license court against
the granting of a retail liquor license
at McClellandtown.

Executors of Wurtz Estate Allowed But Three Per Cent. for Their Work.

The percentage which administrators
may collect for the settlement
of an estate played an important part
in the case of the estate of the late
John W. Wurtz of Dawson, as the de-
ceased recently handed down in the
Orphans court surcharged the admin-
istrators the sum of \$6,572.55, or the
difference between five per cent
which they claimed, and three per
cent, which the court allowed. The
estate was a valuable one, there be-
ing over \$500,000 for final distribu-
tion.

The court holds that, while there
is no fixed rule for administrators
charges, each case must be governed
by its own peculiar circumstances,
and that in this case three per cent
is just compensation.

Wurtz died at Dawson and his ad-
ministrators were A. J. Wurtz and
Robert D. Henry. Their final report
showed a balance of \$500,000.08 for
distribution among the heirs, but in
their account they took credit for
themselves of a commission of five
per cent for services, which amount-
ed to \$16,648.77. Objections were
made and testimony was taken before
the judge of the orphans court.

In the decision on file the court
states that, from the testimony taken,
there were no unusual circumstances
in connection with this case, that it
was settled within about eight
months about all that was required
of the administrators was to collect
the dividends and keep the stocks
and bonds in a safe place. The re-
sponsibility of handling such a large
estate is taken into consideration, but
former decisions are cited showing
that a commission of five per cent
is rare in an estate of \$500,000 or
more. The fact that the administrators
were able to give \$500,000 bond
without any cost to the estate, the

Reno Romance Ends in Wedding

United Press Telegram.
NEW YORK, Feb. 21.—A romance
which began in the divorce colony
in Reno culminated today in the mar-
riage of Richard C. Stoddard, formerly
attorney general of Nevada, to Alice
Elizabeth Johnson, a wealthy New
Yorker. Stoddard met Mrs. Johnson
in Reno while he was preparing to
divorce his wife and she was insti-
tuting an action against her husband,
Walter S. Johnson, a wealthy New
York real estate dealer.

The couple plan to spend their
honeymoon in Paris.

Wife Declares Husband Lied

United Press Telegram.
NEW YORK, Feb. 21.—Asserting em-
phatically that her husband had lied
on the witness stand, Mrs. George W.
Hall of Wilkes-Barre, Pa., testified to-
day in defense of former State Sena-
tor Frank J. Gardner at the latter's
trial for attempted bribery.

Yesterday Hall swore that Gardner
told him he was sent to Albany to kill
the Hudson and Monticello bridges, that
he took him 200 one thousand dol-
lar bills to help in the work; that he
had tried to bribe Senator Feickler,
etc.

This conversation took place in his
apartment in Wilkes-Barre according
to Hall. On the stand Mrs. Hall said
that she was present at the conversa-
tion between Gardner and her husband
and she asserted positively that race
track gambling or legislative bribery
was never mentioned.

Slate Fall Ends Two.

GREENSBURG, Feb. 21.—(Special.)
Charles Popp and Andrew Belak, each
aged 25, were killed yesterday by the
Whitely (Coke Company's) mine at Whit-
ney by a fall of slate.

Aeroplanes at Manila Carnival

United Press Telegram.
MANILA, Feb. 21.—The annual car-
nival began here today with the most
elaborate program of festivities in the
history of the islands. Thousands of
visitors thronged the streets to see the
eleven and military parade. This after-
noon C. J. Marx gave an exhibition
with his aeroplane making a circling
flight over the city.

Train Service Severe.
Service on freight trains over the
mountains here yesterday was inter-
rupted by the cold and blustery weather.
The snow in the mountains is much
heavier than it is here.

John Brown Discharged.
John Brown, arrested here yesterday
as a murder suspect, was released up-
on the arrival of officers from Green-
burg. It was a case of mistaken iden-
tity.

Italian Wounded Mysteriously.
LATROBE, Pa., Feb. 21.—Tony Mon-
ey, aged 25, a miner, was shot myster-
iously near his home in Bradenville
Sunday evening.

A Sudden Change Sends Mercury Down

There was a sudden change in the
weather last night with the conse-
quence that the temperature at 8
o'clock this morning registered 23 de-
grees. This is the lowest point the
mercury has reached for some weeks
past and brought a sudden realization
that winter is still very much in evi-
dence.

The snow and sleet which fell Sun-
day night and yesterday made pay-
ments slippery, especially where they
had not been cleared, which was most
everywhere save in the downtown dis-
trict.

Burgess Evans has stated that un-
less more attention is paid to the snow
shoveling requirements, prosecutions
are to follow. During the present win-
ter snow shoveling has been practi-
cally a lost art in many parts of town,
thereby working a hardship on pedes-
trians.

No More Money Found in Ruins

Contractor William McCormick is
making good time clearing the debris
from the McClelland property at the cor-
ner of Pittsburgh and Apple streets
despite adverse weather conditions.
During the past few days no more
money has been recovered from the
ruins but many articles that were kept
in a chambermaid at noon Monday.

Mr. McCormick believes much of the
material could have been salvaged had
the debris been picked over as care-
fully soon after the fire. Some of the
stock was found in such condition that
it could have been made good as new,
especially chinaware and articles not
inflammable.

Banker Gets Prison Term

United Press Telegram.
NEW YORK, Feb. 21.—A sentence
of not less than two years and two
months was imposed by Judge
Rosenbaum on William R. Montgomery,
former President of the Hamilton
bank.

Montgomery was convicted last week
of having devoted to his own use \$1,
400 of the bank's funds just before the
bank closed October 23, 1907.

Names Omitted

From Dinner Given by Thomas Lynch
To Frick Veterans.

In the list of names of those attend-
ing President Lynch's banquet to the
Frick Veterans Saturday evening, the
names of W. H. Glasgow, Secretary
of the Frick Veterans, and J. H. H. H.
Carroll, Superintendent of Frick, were
omitted.

Miners' President Former Trapper Boy

Chief of Police George Heitzel was
in Uniontown today on business. Dur-
ing his absence Officer P. M. Rull
took charge of the town.

Miners' President Former Trapper Boy

Small boy skaters were out in full
force on the South Side streets yes-
terday, especially following the close
of school hours.

ing his absence Officer P. M. Rull
took charge of the town.

Small boy skaters were out in full
force on the South Side streets yes-
terday, especially following the close
of school hours.

King George of England who vehemently opposes any legislation affecting
the ancient prerogatives of the House of Lords.

SUICIDE BY GAS, DEATH ON RAIL

Cause the Taking Off of
Two Residents of
Banning.

ACCIDENT VICTIM 'H. TODD

Had Been Buried as an Unknown at
Dawson When Nephews Identified
Clothes—J. J. Jones Inhaled Gas at
McClelland Hotel.

A middle-aged man identified as
Joseph J. Jones of Banning, Pa., com-
mitted suicide at the Clifton hotel,
McClelland Sunday night by inhaling
natural gas. The body was discovered
by a chambermaid at noon Monday.

The man left no explanation of his
act, and he destroyed all papers on his
person before he committed suicide,
leaving them in small pieces. In his
pockets was found \$27 and a gold
watch.

When the girl entered the room she
found the body of the man on the
floor. It was covered with blankets
and quilts. He had been dead for
several hours.

Before inhaling the gas Jones wrap-
ped himself in a blanket, inserted a
small hose connected to the stove in
his mouth and covered his head with a
quilt after turning on the gas. It
was in this position that he was
found.

Jones had stopped at the hotel Satur-
day night. He left Sunday morning
but returned, engaged another room
and went to it about 9 o'clock Sunday
night. He appeared jolly and when a
porter offered to light the gas in the
stove in his room he said he could not
sleep with a fire.

Apparently the man was a coal min-
er about 12 years old. His weight is
about 175 pounds.

Jones left no call at the office and a
rule of the hotel in such cases is
for the occupant of rooms to be awak-
ened at noon. A maid knocked on the
door of room No. 30, but received no
response and finally entered with a
key and discovered the dead body.

Howard Todd, a well known farmer
of near Banning was killed on Febru-
ary 15 on the Pittsburgh & Lake Erie
tracks near Banning. The remains
were brought to Dawson, where, after
they had been held for several days,
the body was prepared for burial and
interred in Cochran cemetery as an
unknown. Relatives of Todd began a
search for him as soon as he disap-
peared. They did not hear of the
man who had been killed on the rail-
road until a day or so ago. Yesterday
two nephews came to Dawson from
Banning and positively identified the
clothes worn by the man who had
been buried as an unknown victim
of the rail as those last worn by their
uncle, Howard Todd. This afternoon
the body will be exhumed and taken to
Banning for burial.

Card Game Ends in Murder

United Press Telegram.
BAINSBORO, Cambria county, Pa.,
Feb. 21.—Every police officer in Cam-
bria county joined in the hunt today
for "Don" Tace, aged 20, when word
came of his killing his brother, John,
aged 22, and "Andy" Shock in a pistol
battle in the barroom of the depot hotel
at Bainbridge, Pa., shortly before mid-
night.

An argument over a card game, it is
said, led to the fight. The brothers
shook revolvers simultaneously and
Shock, who failed to get out of the
zone of fire, was the first shot down.
Both brothers fired until their weapons
were emptied and then John fell to
the floor. He and Shock died a min-
ute later.

In their anxiety to care for the
wounded men none of the crowd in the
saloon saw in which direction "Don"
Tace fled.

Iowa Governor Vetoes Primary Bill

United Press Telegram.
DES MOINES, Ia., Feb. 21.—Govern-
or Carroll at noon today appeared be-
fore the General Assembly and read
his veto of the Oregon primary bill
passed by the votes of Democrats and
Progressive Republicans. He said he
vetoed it because it might result in
the election of a Democratic Senator.

Strikebreakers Imported.
CLEVELAND, O., Feb. 21.—(Speci-
al.)—The New York Central railroad
today imported 50 strikebreakers from
Chicago for the Collinwood shops
where Saturday's strike order origi-
nated.

Y. M. C. A. IS DOING MUCH WORK.

The Reading Room is Always
Crowded and Many Find
Amusement There.

GAMES LIMITED BUT POPULAR

Atmosphere of Good Fellowship Per-
vades the Building at All Times and
Others Besides Members Find
Things Pleasant.

Secretary Frank L. Chase of the Y.
M. C. A. has issued a communication
to those who contributed to the sup-
port of the Association during the re-
cent membership campaign in which
he outlines the nature of the work be-
ing accomplished.

The rooms of the Association are
crowded nearly all the time and scores
of young men who cannot afford to be-
come members are spending their
spare hours in the reading room or
where the games are played. Although
the equipment of games is limited to
checkers and chess, these have be-
come decidedly popular.

The reading room is never empty,
during the hours the Association is open
and the magazines and periodicals are
read and re-read until they are prac-
tically worn out before the next issue
arrives.

It is in the gymnasium, however,
where the greatest activity is shown.
Physical Director Charles J. Kil-
bourne has 14 regular classes each
week. The Junior class has grown to
such proportions it had to be divided
and over 70 boys are now enrolled.
New ones are constantly entering and
all previous records have been broken.

The attendance in the Senior class
is 10 per cent larger than at any pre-
vious time since the Association was
organized and the Intermediate class
shows a gain of 22 per cent over pre-
vious records. The "Employed Boys"
class has an enrollment of 22.

For the number of a great Inter-
national movement has broken its best
previous record.

The "Boy Scout" is a new organiza-
tion which is gaining rapidly in popu-
larity. This is part of a great Inter-
national movement inaugurated in
England and brought to this country.
The local camp has 20 members and
an equal number ready for admit-
tance.

The religious work shows the same
healthy growth of the other depart-
ments. This work includes a Bible
Study class for boys which meets ev-
ery Saturday morning previous to the
regular work in the gymnasium. Every
Tuesday evening the Railway Men's
Bible Class meets. It has an enroll-
ment of nearly 70 and is open to all.
At noon each Thursday a meeting is
held in the Connellsville Machine &
Car Company, reaching from 60 to 75
men. Sunday afternoon mass meet-
ings for local classes are being held.

There are two for the men who work
in the mines, one for beginners, tak-
ing up the first principles of the work,
and the other for advanced men.

Other work of a character in nature,
visiting the sick and caring for stran-
gers in the city, is being accomplished.

Coke Company Made Defendant

Special to The Courier.
UNIONTOWN, Feb. 21.—J. M. Deffen-
baugh entered suit against the Con-
solidated Connellsville Coke Company
today to recover \$25,835 with interest
from December 17, 1905.

Between July 6, 1901, and November
17, 1905, Deffenbaugh claims to have
delivered to the Masontown Coal &
Coke company's work near Masontown
lumber, hickory, boards, doors and
other supplies. Since then, that com-
pany has been merged with the Ster-
ling Coal & Coke Company and new
letters patent issued.

By reason of the consolidation the
new company is held liable for the
debt, according to Attorneys Gans and
Jones for the plaintiff.

DUKE D'ABRUZZI COMING

To Pay a Visit With Family of Late
Senator Elkins.

LONDON, Feb. 21.—(Special.)—The
Duke d'Abuzzi has obtained a leave
of absence from his naval command
which he will spend in the United
States as the guest of the family of the
late Senator Elkins, according to a
message today from the Rome corre-
spondent of the London Globe.

Coke Plant Ordered In.
Orders have been received for the full
resumption of the Leth No. 2 plant
of the H. C. Frick Coke Company at
Hopwood. Everything is being arrang-
ed to start operations tomorrow. Em-
ployment will be given to about 125
men.

Why it Pays to Buy Advertised Goods

By Seth Brown

Because the advertiser has done something to inspire confidence. He has not only explained the value and usefulness of his product, but has put his personality and reputation behind his statements.

He can be trusted because his very business existence is at stake. He believes in his goods to the extent of investing his capital, not only in making the goods right, but in advertising, which will not prove permanently profitable if he fails to make good—secure repeat orders.

The advertising is not only a protection to the trade name, but it is the advertiser's guarantee of quality.

You are justified in being suspicious of unadvertised goods, because, however much confidence the dealer or manufacturer may have in them, he has not enough faith in them to spend money in telling others of their goodness.

It always pays to buy advertised goods.

63 Years of Age—Younger Than at 40

Mrs. J. W. McPeck, of Herber, Pa., is more than pleased with the results obtained from the use of Duffy's Pure Malt Whiskey, which has been of great benefit to her family. She says in her letter: "I have been using Duffy's Pure Malt Whiskey for the past ten years. It is the best health giver I ever used. I am now 63 years of age, but I am looking and feeling younger than at 40. My friends all say, 'How young you look!'"

"It has also proved just the thing for my daughter. She had such weak nerves and heart that the slightest move would startle her. Your wonderful remedy has practically overcome this, and has done her more good than all other treatments."

Mr. McPeck writes about his remarkable experience: "I am 67 years of age, and for a number of years I haven't been strong. I have a weak heart and for some time was almost helpless. Lately I have been using Duffy's Pure Malt Whiskey, and it has helped me wonderfully. I sincerely recommend Duffy's Pure Malt Whiskey to every one."

The genuine is sold in SEALED BOTTLES ONLY by all druggists, grocers and the post office. \$2.00 a large bottle. Look for the "Old Chemist" on the label and make sure the seal over the cork is unbroken. Medical booklet containing rare common sense rules for health and testimonials, also doctor's advice, sent free to any one who writes The Duffy Malt Whiskey Co., Rochester, N.Y.

SENATE FACES BITTER WAR OVER BILL AIMING TO DECREASE SPECULATION.

WASHINGTON, Feb. 21.—A parliamentary battle equaling in bitterness the contest over reciprocity or popular election of Senators and even outdoing the latter in its fierceness, is being waged in the Senate today over the bill to amend the act to regulate the cotton futures market. The bill, which is now before the Senate, is aimed at decreasing speculation in cotton futures. It is a measure of great importance to the cotton industry, and is expected to be passed by the Senate in the near future.

COAL PRODUCTION IN WEST VIRGINIA

Was 25 Per Cent. Greater
in 1910 Than Any
Other Year.

MANY NEW MINES OPENED

And More of Them Will Be Shipping
Coal During the Present Year.
Mountain State Now Second in the
Production of Coal.

WHEELING, Feb. 17.—Although West Virginia's coal production in the calendar year of 1910 was 25 per cent. more than during any year in the history of the State, the outlook is for a still greater output this year.

With the increased production of 1910 West Virginia, for the first time, comes into second place among the coal producing States of the Union, being outdistanced only by Pennsylvania. Of all the coal mined in the United States, West Virginia produced a little more than one-sixth, and of all the coal mined in the United States outside of Pennsylvania the little Mountain State produced about one-fourth.

A great many new mines are to be opened this year, while improvements that have been authorized will result in increased production at old mines. Activity in the way of opening new mines is confined principally to the Southern district of the State.

The New River and Pocahontas Consolidated Coal Company, operating in the New River district, expects to increase its output by a million and a half tons this year. This increased output will come from the company's mines at Mingo, Gentry and Berwind, while it is possible that new lands on Peter's Run may be developed. The company has placed orders for new gathering locomotives and mining machinery, stipulating immediate delivery.

The Clinchfield Coal Corporation, also operating in the New River district, has some ambitious plans. The company owns 200,000 acres of the best coal land in West Virginia and expects to open up a great deal of it before the end of the year. Plans have been approved for a \$500,000 electric plant, a \$100,000 water plant and other improvements necessary to the mining industry. The company expects to increase its output by 2,000,000 tons or more over what it was last year.

The Norfolk & Western railroad is now building a branch line to reach two new mines that will be opened soon by the Pocahontas Consolidated Coal Company. This company is now installing modern electrical apparatus in all its mines, which will enable it to operate at a minimum cost and at the same time increase its production.

The Four States Coal & Coke Company, a new concern which took over the Big Coal Company of West Virginia, the Annabelle Coal & Coke Company, and the Four States Coal & Coke Company, will also increase its output, which will be handled through the Pittsburgh Transfer Coal Company for the next 29 years. The mines taken over by the new concern include the Bertha, the largest mine in the Cabell Creek district, the Serrita mine, 8,500 acres of land purchased from the Readland Coal Company, 6,500 acres of land owned by the Annabelle Coal & Coke Company and several tracts of coal and surface land owned by the Four States Coal & Coke Company.

Although the new concern has acquired upward of 24,000 acres of coal and surface lands, which contain in excess of 400,000,000 tons of coal, enough to last the company a century at the rate of 1,000,000 tons a year, the present output of the company is about 1,000,000 tons per year, but this will probably be increased by half this year.

Because of its coal producing qualities coal mined in the "backer" field has come into great demand in the Eastern markets. The Red Jacket Consolidated Coal & Coke Company, which operates almost exclusively in the "backer" region, is now at work opening its Mitchell branch mine to meet the ever growing demand of the East. This new mine will be the largest in the district.

In the northern district of the State the Davis Coal & Coke Company will develop considerable new territory to take care of new contracts the company has. Recently this company received a contract for three shipments of coal for Havana, Cuba, and an announcement has been made that the company intends to open after the Pacific coast trade just as soon as the Panama Canal is completed.

A radical change is expected to come about in the mining industry before the end of the year in the total abolition of miles in the mines, which will be displaced with rubbering locomotives propelled by electricity. This condition is due to the adoption of steel mining cars and long hauls, which ruin the miles and increase the cost of operation.

An Accomplished Linguist.

"Did you hear any French while you were in Paris?" asked Sitters, meeting Sitters shortly after his return from Europe.

"Oh a little," said Sitters. "Not a very much, though. I got so I could say 'cigarette' in French."

"Good!" said Sitters. "What is cigarette in French?"

"Cigarette," said Sitters.—Harper's Weekly.

UNITED STATES ASKED TO AID IN PREVENTING WAR BETWEEN RUSSIAN EMPIRE AND CHINA.

WASHINGTON, Feb. 21.—The relations between Russia and China are becoming more strained than ever. Russia has ordered several regiments of troops to the Chinese frontier, according to intelligence sent to the State Department here by the government at St. Petersburg. The State Department will immediately ask both countries to submit their grievances to the League tribunal and hold in abeyance any hostile demonstrations until that body can act. This step will be taken with a knowledge that the Chinese have always been a staunch supporter of the League court. The Chinese ambassador here, Ching Yin Tang, has appealed to the State Department to gain the aid of the United States towards preventing war.

VIRGINIA'S OUTPUT

Of Coal Last Year Was Nearly Three Million Tons.

According to statistics collected by the United States Geological Survey in cooperation with the Bureau of the Census, Virginia was one of the few States whose production of coal in 1910 exceeded that of 1907, which had previously been the record. The new record for Virginia's production in 1910 was due to increased production in Wise county and to active development in the coal fields of the State. The net increase for the State was 193,175 short tons, or 11.5 per cent.—from 1,655,012 short tons in 1907 to 1,848,187 short tons in 1910. The value increased \$19,578, or 2.7 per cent.—from \$718,522 to \$738,100. Compared with 1907, the output in 1910 exhibited a gain of 11,322 short tons in quantity, but the value of the product in 1910 was nearly \$150,000 less than that of 1907. The average price per ton was 42 cents in 1909, against 91 cents in 1908 and \$1.02 in 1907.

The number of mining machines in use increased from 55 in 1908 to 107 in 1909, and the amount of coal mined coal increased from 1,055,322 to 1,223,111 tons, nearly 30 per cent. of the total quantity of coal mined in 1909. In 1907 the quantity of coal mined by machines was 785,734 tons and in 1909 it was 1,212,133 tons. None of the coal produced in Virginia is washed before being sold or used. There is no State officer charged with the duty of inspecting mines or of collecting the statistics relative to mine accidents. Inquiries made of the operators by the Geological Survey show that in 1909 there were 23 men killed and 207 injured. There were no deaths or injuries due to explosions of gas or dust. Sixteen deaths and more than two-thirds of the total number, were due to falls of roof and coal, and 129 of the nonfatal accidents were due to the same cause.

The first bituminous coal mined in the United States was taken from a small area of Triassic rocks in the southern portion of the State, near the city of Richmond. This basin is situated on the eastern margin of the Piedmont Plateau, 11 miles above the James River. It lies in Goochland, Henric, Powhatan, and Chesterfield counties. Coal in the Richmond basin was known as early as 1700, and it was used in the last quarter of the eighteenth century. In 1759 shipments were made to some of the northern States. In 1822, according to R. C. Taylor, the production amounted to 48,214 long tons. The coal beds of

this basin are much distorted, and the coal is of rather low grade when compared with that from other districts with which it has to come into competition. The mines are also gaseous, and as the high grade coals from the New River district in West Virginia and from the Richmond basin, the production fell off rapidly. During the latter part of the nineteenth century expensive but unsuccessful efforts were made to reestablish the industry in this field.

The coal could not be forced upon the market in competition with the higher grade coals from other districts, and at the present time the little coal mined there is used for local consumption only.

With the completion of the Norfolk & Western railway in 1882, the coal fields in the southwestern part of the State, which belong to the Appalachian system, were opened. A portion included within this system, and the construction of the Clinchfield branch of the Norfolk & Western railway in 1892, opened valuable coal lands in Wise county, which has since become the most important producing district in the State.

The development of the Black Mountain field, in Lee county, after the completion of railroad connections from Pennington Gap to Appalachia, was begun in 1905 and a small production was reported in 1906. In 1907 the output of this county amounted to nearly 200,000 tons and in 1908 to more than 100,000 tons, but in 1909 it fell back to a little less than 150,000 tons. Further development of this district is looked for and it is expected to materially increase the production of the State.

STRUCK LOOSE SAND

In Boring Savage Mountain, and Hole Dropped Out Side of the Hill. In tunneling Big Savage mountain, beyond Mt. Savage, this week on the Western Maryland extension, in going through the mountain, workmen struck a vein of red quick sand, which burst out from the roof of the tunnel, narrowly missing a dozen workmen, and driving them out of the tunnel.

The sand continued to flow until the tunnel was filled. A hurry call was made for several car loads of lumber to board the roof up, and before the rush of sand was stopped a hole 150 feet through the mountain fell in, letting in daylight. Immense gangs of men were put to work shoveling the loose sand, and indications are that this section of the mountain is one huge sand bank, and it will take a great deal of timber to support it.

MINERS' CERTIFICATES
Bill For Soft Coal Regions to Be Introduced.

A plan to extend the miners' certificate regulation to the soft coal fields is embodied in a bill that is to be introduced in the Legislature by Representative William Fowey of Charlestown. The certificate system is now in vogue in the anthracite region. Mr. Fowey is a member of the United Mine Workers and is familiar with the needs in the soft coal region. It is his contention that the rapid development of the bituminous mining industry has resulted frequently in the sending of inexperienced men into the mines, thus endangering the lives of themselves and others.

It is proposed to require two years' experience before a certificate will be issued by the miners' examining boards, as required in the hard coal mines. Certificates are not to be issued to those who do not understand the English language.

The miners' certificate regulation of the hard coal regions, which is proposed to extend to the bituminous fields, provides that no one can be employed as an experienced miner who has not had at least two years' experience in the practical mining under competent supervision, based on an examination before a board of examiners appointed for the purpose, and been granted a properly authorized certificate, for which the fee is \$1. A knowledge of the English language is also necessary.

Perfumes.
Civet is an aromatic substance of the consistence of honey and is obtained from a pouch on the civet cat, an animal from two to three feet long and about ten or twelve inches high. The best known of animal odors is musk, which is obtained from the musk deer. Civet furnishes the best quality. Twenty-five pods or sacks are packed in oiling boxes composed of plates of lead inclosed in a caddy made of pasteboard. Musk is obtained from Assam, Siberia, the Altai mountains and other parts of northern Asia. Ambergris is another animal odor. It is secreted in the intestines of the sperm whale. A very curious fact is that ambergris is only accumulated by disease—that is, it is only secreted in a sick whale. It is very hard, of a light gray color and is found in quantities varying from twenty to fifty pounds. It is worth about \$9 an ounce—London Standard.

TO CURE ANY DISEASE,

The Cause Must Be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Dandruff Destroyer not only kills the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ. It stops irritation, keeps the scalp sweet, pure and wholesome. McKeesport 57; Johnstown 32.

Club Standing:
McKeesport 12 19 200
South Side 10 20 217
Johnstown 9 21 211
Uniontown 8 22 205
Homer 7 23 191
Disbanders 6 24 182

Games Tonight.
South Side at Conneltsville.
Uniontown at Johnstown.

The South Side team, fighting a hard, uphill battle to win the Central league pennant, makes its last appearance on the local floor tonight. It will be a hard game. The Houghites cannot afford to drop a single game. If they lose to win the pennant while the "Coke" will exert every effort to put a crimp in South Side's ambitions. There isn't the least friendly feeling between the two teams, as far as basketball is concerned, and nothing would give the locals greater pleasure than to hand Harry Hough and his warriors a nice, healthy wallop.

There are just four more games on the home floor. South Side and Johnstown play this week with McKeesport and Uniontown the drawing card next. The season is fast drawing to a close. While the pennant is practically conceded to McKeesport, South Side has a slight chance to nose the Tubers out. If they lose tonight they can be counted out of the running.

The preliminary game tonight offers something more interesting than usual. High School and Y. M. C. A. will be the contestants. Y. M. C. A. has to win in the High School. Since Monroe has rejoined the Y. M. C. A. boys there is a vastly different team.

Both teams have more teamwork than is usually found among aggregations of amateurs, while there are some classy shots on both. (Crissold is a danger to any man when he gets under a basket and can be "fed." Monroe is a guard who disconcerts his opposing forward by playing a speedy floor game. Thomas is a good guard who can also do some clever dribbling upon occasion, while Marshall holds down a forward with credit. Bradley is a poor scorer but jumps center with the best of them.)

High School has a strong lineup. Captain Earl Buttermore will give Bradley the time of his life on the jump and is a considerably better scorer. Scott plays basketball as well as he does football, and that is saying a good bit. Hight is also a mighty clever player when he gets gingered up and into a game right. A. Buttermore shoots true and should make trouble for Y. M. C. A.

For the First Game.
Young Man—So Miss Ethel is your oldest sister. Who comes after her? Small Brother—Nobody ain't come yet, but you say the first fellow that comes can have her.—Boston Transcript.

Remonstrances Against Retail Licenses For Sale of Liquor in Somerset County.

Special to The Courier.
SOMERSET, Pa., Feb. 21.—Four remonstrances against liquor licenses are filed in the courts here.

The first is against the granting of retail license to George L. and Martha E. Klare, new applicants for license in Jerome, a former township mining community. There are two remonstrances against the granting of this license, the first of which is signed by 123 residents of Jerome and sets forth that there is at present one licensed house in Jerome, that another is unnecessary, and that the population of Jerome is composed chiefly of miners and that another hotel would be used chiefly for the purpose of obtaining intoxicants, there being at present ample accommodation for the traveling public.

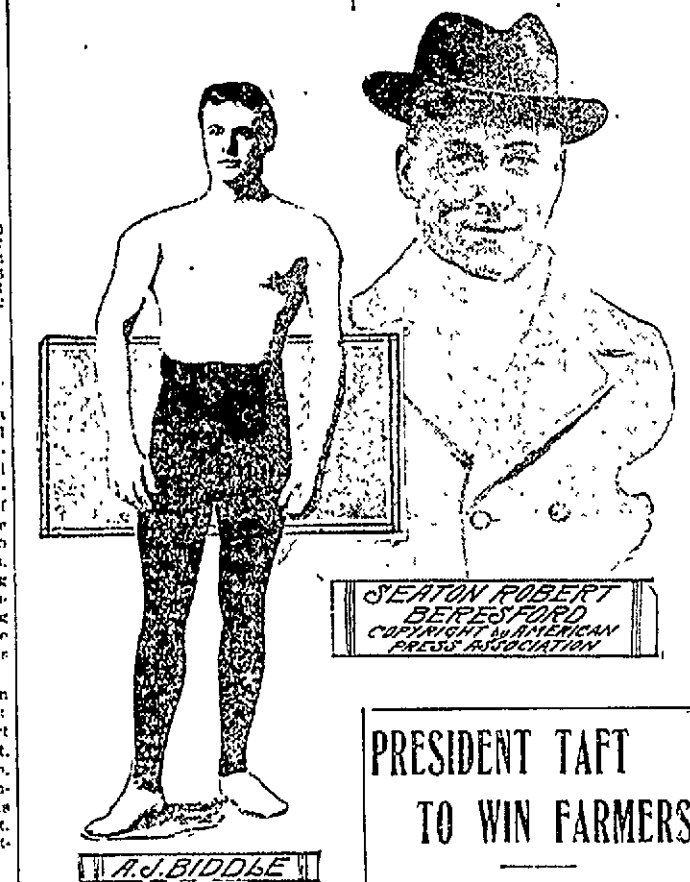

The second remonstrance against this license is signed by 11 residents of the locality and sets forth that this license is unnecessary, there being one license house which is ample to afford accommodation for the traveling public, that the police protection of the town of Jerome is inadequate, and that another licensed house would increase the consumption of intoxicants.

A remonstrance was also filed against Isaac W. R. R. a new applicant for retail license near Davidsville. This remonstrance is signed by 77 residents of Commonwealth township and sets forth that the license is unnecessary, as the accommodation of the traveling public, that the house is not suitable for hotel purposes, that it is located about 275 feet distant from a church and that the police protection in the vicinity is inadequate.

Another remonstrance signed by 20

Biddle and Barbour, Heirs to Millions, Want to Box Beresford.

PHILADELPHIA, Feb. 21.—The man and boxer, who lent from Jack O'Brien how to use his "mule," Biddle, heir to millions, has boxed with almost all the leading fighters. Warren Barbour of New York, another heir to millions, being a son of the prominent thread manufacturer, is another amateur champion boxer of the United States. A Beresford-Biddle or a Beresford-Barbour match would attract most of the members of New York's Four Hundred as spectators.

PRESIDENT TAFT TO WIN FARMERS.

Sends "Tama Jim" Wilson
Out to Win Them to Can-
adian Reciprocity.

ARE INCLINED TO OPPOSE

President Does Not Believe Their Op-
position is as Widespread as Some
Would Have It Appear to Be But
Recognizes Some Existence.

Special to The Courier.
WASHINGTON, D. C., Feb. 21.—While President Taft does not believe that the opposition of the farmers of this country to the proposed reciprocity agreement with Canada is nearly so deep-seated or so widespread as some persons are endeavoring to have it appear to be, he nevertheless recognizes the fact that such opposition exists and is likely to prove very troublesome in bringing about the consummation of the proposed agreement unless it is overcome. Consequently his most urgent appeals and his most persuasive arguments in behalf of the measure are now being directed to the American farmer.

In line with the President's reciprocity campaign will be the trip of Secretary of Agriculture Wilson to Buffalo today where he will deliver a Washington, D. C., address before the Buffalo Club of that city. Secretary Wilson in his address will pursue the same line of argument in regard to reciprocity used by the President in his recent speeches in Columbus and Springfield, but will go more into details of the plan and the manner in which it may be expected to affect the interests of the American farmer. His speech will be a direct reply to the arguments going the rounds that the farmers and farmer organizations of the country are opposed to Canadian reciprocity.

President Taft believes the Secretary of Agriculture is probably the best-informed man in the entire country on all that affects the interests of the farmers and he is sure that his arguments on reciprocity will be valuable. It is declared by sources close to the administration that the National Grange, which has been widely quoted as opposing the agreement, has not acted as an organization and that the entire clamor has been made by a few of the officers of the organization who are personally opposed to reciprocity and are seeking to have the organization endorse their views.

A letter from C. L. French of Conneltsville superintendent of the Conneltsville division of the B. & O. railroad, sets forth that license should not be granted to A. W. Bauman, applicant for a new retail license in Somerset borough for the American House, and also against Percy E. Lambert, mentioned above, for the following reasons: both hotels are close to the B. & O. station and tracks; license in such close proximity to the railroad would be a source of danger to intoxicated persons who would be under on the tracks, and also would be a constant temptation to railroad employees, who are bound by stringent rules regarding the use of intoxicants. It is stated that there will be remonstrances against several other applications.

For ten days from last Saturday an expert will engrave name or monogram on the wares we sell you from a certain line. For instance:

Belt Pins 39c to 49c
Collar Pins 25c to 35c
Veil Pins 25c and 29c
Neck Pins 15c to 19c

Hat Pins, Fobs, Tie Clips, Cut Links, etc. All pieces White metal in gold, silver or Roman finish. Tell the expert what you want and presto! in ten minutes it's done.

A Big Suit Sale in Preparation

Keep this before you gentlemen, and watch the next change of advertisement for the date. It's a live wire affair—a red hot downward price revision and a happening that you'll remember every time you see a suit of clothes. We've been sawing wood and saying little of late, but wait until we shout suits. You owe to yourself, your family, your bank account every opportunity to save the dollars. When the chips begin to fly in our greatest suit sale you'll save tens instead of ones.

SKIN AND SCALP TROUBLES YIELD TO ZEMO.

A CLEAN LIQUID PREPARATION FOR EXTERNAL USE.

The Graham & Company Drug Store is so confident that ZEMO will rid the skin or scalp of infant or grown person of pimples, blackheads, dandruff, eczema, prickly heat, rash, itch, freckles or any other form of skin eruption, that they will give your money back if you are not entirely satisfied with the results obtained from the use of ZEMO.

The first application will give prompt relief and show an improvement and in every instance where used persistently, will destroy the germ life, leaving the skin in a clean, healthy condition.

Let us show you proof of some remarkable cures made by ZEMO and give you a 32 page booklet how to preserve the skin.

Graham & Company Drug Store.

The Men's Suit Sale Friday and Saturday.

Helps over the rough places on the long road to spring. Was your suit or overcoat too shabby last Sunday.

WRIGHT-METZLER CO.

A HEALTHY, HAPPY OLD AGE

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a desiccated powder of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Elixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always effective and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the Company—California Fig Syrup Co.—plainly printed on the front of every package.
